Guideline for the remuneration of executive personnel

The guideline for the remuneration of executive personnel, which is considered an advisory guideline (non-binding) is as follows:

(a) Fixed remuneration component

For fixed elements which include non-performance fixed base salary and allowances, and contributions to retirement benefits schemes, these are assessed and determined by the complexity and responsibility of the position, with a view to attract, retain and motivate high performing individuals and in line with the prevailing market conditions and local market practice. No individual should determine his or her own fixed remuneration. Fixed remuneration to individual executive directors and executive personnel are reviewed annually by the Remuneration Committee and subject to the Board's approval.

(b) Variable remuneration component

For variable elements which include performance-based discretionary bonus, these are assessed and determined by the overall performance of the individual and contribution to the business strategy and objectives, as well as shareholders' values of the Company. No individual should determine his or her own variable remuneration. Variable remuneration to individual executive directors and executive personnel are reviewed annually by the Remuneration Committee and subject to the Board's approval.

Since the dry bulk shipping industry is highly volatile and heavily influenced by external forces, it is inappropriate to link the performance-based variable remuneration solely to any financial measurable targets over a particular period or set an absolute limit to each remuneration component as it may generate meaningless results. The Board seeks to ensure appropriate balance amongst all performance factors in determination of variable remuneration component to executive personnel.

Currently, the Company has not adopted any share option scheme and no equity-based compensation arrangement is granted to any directors and executive personnel. For any special equity-based compensation arrangement that will be granted to eligible executive personnel in future, these compensation arrangement will be determined by the individual's contribution to the promotion of and enhancement of the long term value of the Company. This equity-based remuneration will be considered by the Board and be included as a separate binding resolution in the general meeting subject to the shareholders' approval.

Note: The guideline for the remuneration of the executive personnel is also included in the Company's 2014 annual report.
