REASONS FOR THE ACQUISITION OF TWO VESSELS

The Group's principal activities are international ship chartering and ship owning. The Acquisition of the First Vessel and the Second Vessel is consistent with the Group's ongoing strategy to renew the fleet with modern, larger and high-quality vessels, by gradually phasing out its older vessels and replacing them with newer and younger vessels. The availability of suitable young modern vessels in the second-hand market fluctuates over time. At present, no high-quality young second-hand vessels offering a balanced combination of suitable specifications, favorable delivery timelines, and reasonable pricing can be identified. We have considered transaction prices for comparable vessels in available recent market transactions and resolved to order brand-new vessels that comply with the latest maritime regulations and incorporate tailor-made designs. The Vessels are more fuel-efficient and of higher operational efficiency than the other bulk carriers of the Group currently in operation, which meets the latest environmental regulations and prevailing specification requirements in the shipping industry. This decision supports the Company's long-term objective of maintaining a young and modern fleet to better serve its customers and meet the specific demands of its cargo trades and destinations.

Upon the completion of the Acquisition of the First Vessel and the Second Vessel, the Vessels will be chartered out to third parties for the transportation of dry bulk commodities to receive charter hire and to generate recurring chartering freight and hire income for the Group. The Directors believe it is an opportune moment to further expand its fleet of vessels in order to increase operating income for the Group. The Group currently operates twenty-one vessels, including eighteen owned vessels and three chartered-in vessels, with total carrying capacity of approximately 1.7 million metric tonnes. Among the owned vessels were two that have been arranged under sale and leaseback agreements and two which have been disposed of and reclassified under assets held for sale.

The Directors consider that the terms and conditions of the First Shipbuilding Contract and the Second Shipbuilding Contract are fair and reasonable and have been agreed on normal commercial terms following arm's length negotiations and are in the best interests of the Company and its shareholders as a whole.
