Consideration

Under the Agreement, the Vendor agrees to dispose of the Vessel for a consideration of US\$14,600,000 (approximately HK\$113,880,000) payable by the Purchaser as follows:

- (1) an initial deposit of US\$1,460,000 (approximately HK\$11,388,000) will be payable by the Purchaser within three banking days after the date that (i) signing of the Agreement; (ii) signing of the escrow agreement; and (iii) the confirmation from the escrow agent confirming the account is ready to receive the initial deposit;

The first installment will become payable three months following the delivery of the Vessel. Interest on the outstanding amount will accrue at a rate of 8.75% per annum, calculated over three-month interest periods commencing from the date of delivery of the Vessel. Interest shall accrue daily, based on a 365-day year, and shall be calculated for the actual number of days elapsed (inclusive of the first day and exclusive of the last). All accrued interest is payable on the relevant installment payment date and was concluded based on arm's length negotiations and was on normal commercial terms.

To secure the Purchaser's performance and observance of and compliance with all of the covenants, terms and conditions under the Agreement, including the due payments of the outstanding amount and any other sums owed by the Purchaser, the Purchaser shall create a first priority Hong Kong ship mortgage of the Vessel in favour of the Vendor and enter into certain security documents in the form and substance satisfactory to the Vendor.

The consideration of the Vessel was determined by reference to market intelligence. The Company has gathered such information from shipbrokers and its own analysis of recently concluded sale and purchase transactions of vessels of comparable size and year of built in the market, valuation from independent valuer and on the basis of arm's length negotiations with the Purchaser.

In the course of negotiating the consideration of the Vessel, the Group obtained indicative valuation of the Vessel from Arrow Valuations, an independent valuer and an affiliate of Arrow Asia Shipbrokers Ltd., an independent shipbroking group. Arrow Valuations appraised the Vessel at US\$14.5 million (approximately HK\$113 million) as of 12 October 2026. The market approach has been adopted in the valuation of the Vessel. In the process of gathering market intelligence from shipbrokers, we receive market information on the sale and purchase market of second-hand vessels on a daily basis from international shipbrokers. We also discuss with international shipbrokers frequently to gather market intelligence on what vessels are being put on the market for sale and purchase, which parties are looking to buy or sell their vessels on a worldwide basis. As each vessel is never identical, management has based on experiences and market knowledge to consider and come up with the acceptance of the offer.

Possible financial effects of the Disposal of the Vessel

The unaudited net book value of the Vessel as at 31 August 2026 as described above represents the estimated recoverable amount which was based on the value in use under the requirement of Hong Kong Accounting Standard 36 Impairment of Assets. The Group would realize a book gain of approximately HK\$52 million on Disposal of the Vessel. The actual book gain which the Group would realize upon completion of the Disposal of the Vessel will depend on the actual net book value of the Vessel in accordance with the Group's impairment and depreciation policy for the vessel as shown in the Company's annual report and the actual costs of disposal incurred for the Vessel at date of delivery.

Use of proceeds

The net sale proceeds from the Disposal of the Vessel will be applied toward general working capital purposes. Specifically, the Company will utilize the funds to repay short-term borrowings, thereby reducing interest expenses and improving its capital structure. A portion of the proceeds will be used to settle outstanding creditors and payables. To enhance financial flexibility, part of the proceeds will be retained as a liquidity buffer and reserve for any unforeseen expenditure or market fluctuations.

REASONS FOR THE DISPOSAL OF THE VESSEL

The Group's principal activities are international ship chartering and ship owning, and the Directors continuously review prevailing market conditions of the shipping industry and monitor and adjust the Group's fleet profile as appropriate. The Disposal of the Vessel aligns with the Group's ongoing strategy to optimize its fleet profile, maintain a well-balanced portfolio, and reduce operational risk exposure amid current volatile shipping markets. The transaction will significantly enhance the Group's working capital position while further strengthening its liquidity and overall financial standing.

During negotiation regarding the consideration of the Vessel, a market-based approach was adopted, as it provides a fair and reliable current situation of valuation, for both the Vendor and the Purchaser. The Directors consider that the terms and conditions of the Agreement, which were determined after arm's length negotiation between parties on normal commercial terms, are fair and reasonable, and believe that the Disposal of the Vessel is in the interests of the Company and its shareholders as a whole.

Prior to the transaction, the Group operated nineteen vessels, comprising sixteen owned vessels (including the Vessel) and three chartered-in vessels. Following the Disposal of the Vessel, the Group continues to operate a balanced and diversified fleet of dry bulk carriers, currently comprising Capesize, Panamax, Ultramax, and Supramax bulk carriers. The Directors believe that the Disposal of the Vessel will not have any material adverse effect on the operations of the Group.

Moving forward, the Group will focus on upgrading its fleet quality, refining its composition, and reducing the average age of its vessels to maintain market competitiveness. The Group will continuously monitor market conditions and operations on an ad hoc basis to preserve high financial flexibility. This strategy includes looking out for future opportunities to redeploy capital into more suitable assets, which may involve the disposal of smaller, older vessels and replacing them with newer vessels or charter-in options.
